

Macadamia Sprinkler

An innovative upside down (UD) sprinkler designed to optimise water coverage

Pressure
Compensated

Best in-
class water
distribution

Higher reliability
& longevity

/ Benefits & Features

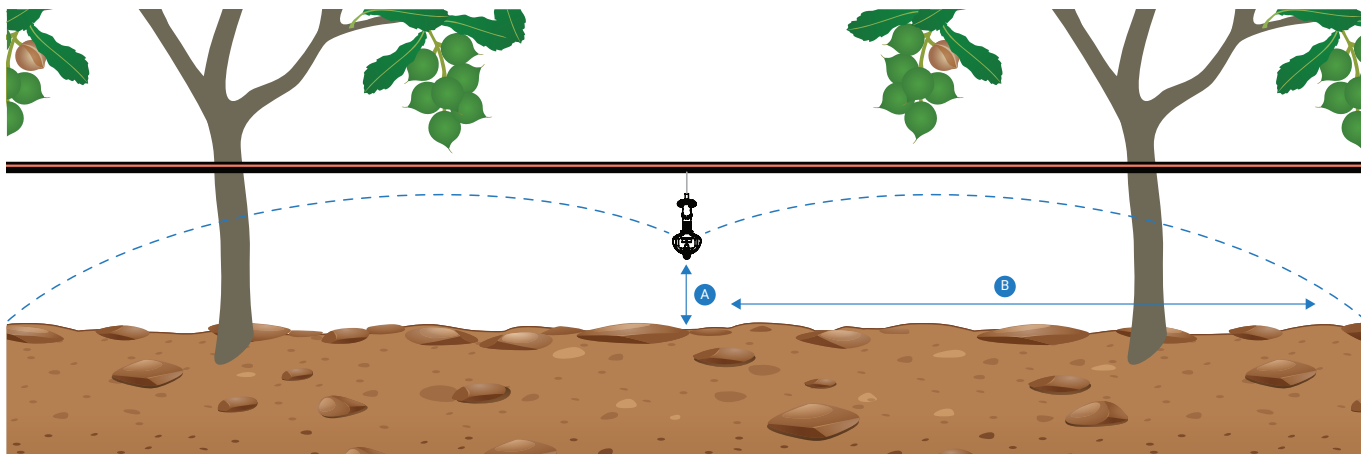

- **Sprinkler Performance** An upside-down (UD) micro sprinkler creating an improved throw distance and generating larger droplets, leading to an enhanced wetting pattern, more even distribution, and improved uniformity
- **Low-impact installation and maintenance** An upside sprinkler that positions itself correctly, and doesn't require additional labour or parts to hang
- **Anti-ant mechanism** The spring loaded swivel shuts the nozzle when its not in use to prevent insects and debris entering the sprinkler
- **Long-term reliable service** The self-righting super soft tube reduces the impact of mechanical operations and is more resistant to damage from standard field activities
- **ISO 8026** Complies with ISO 8026 standards (SI 1406) and is supported by Netafim's agronomic and technical expertise

/ Specifications

- Pressure Compensated micro-sprinkler. Pressure range 1.5 to 4.0 bar
- Specially designed and engineered dropper assembly to facilitate in-field self-correcting
- A specially designed spring bearing keeps the anti-ant feature even when the sprinkler is mounted in an up side down position

/ Technical Data

Flow Rate (L/Hr)	Nozzle Colour	Nozzle Size (mm)	Pressure Range (m)
50	Green	1.43	15 - 40
70	Black	1.73	15 - 40

Due to the Flat Trajectory of the Sprinkler, there is minimal impact to Tree Foliage

50lph Green Swivel		70lph Green Swivel
A	Height from ground	20 – 35 cm
B	Throw	2.5 mt
